LAGOON LOWERING/REFILLING DATES

At the March 17, 2009 Board of Directors Meeting the Board and the City of Alameda agreed on the dates to begin lowering and refilling the lagoons.

Lowering will begin Tuesday, May 26, 2009
Refilling will begin Tuesday, June 23, 2009

Some things to remember when the lowering occurs:

- Restrict your dogs from running on the exposed beaches & accessing neighbors' property.
- Be sure to scrape off all the coral build-up on the seawalls & around the dock supports. Put it in bags and put the bags by the street curb in front of your house. The City will collect it. If there is any algae build-up or matted accumulation on your exposed beach, please rake it and bag it, also.
- If you need any dock repairs, you may want to schedule during this period. It usually takes some time for the lagoons to be lowered & for the areas to dry.
- The owner of the property adjacent to the seawall also owns the seawall. You should inspect the seawall during this period & make any needed repairs.
- Any questions? Please call the Association's Operating Manager, Barry Christensen at 925-323-3577 (Cell Phone), 510-769-6357 (Home Phone) or email him at AWLHOA@hotmail.com.

Thank you!
